

LEGAL

Sub-processors

Every third party that processes customer data on our behalf. We add to this list only with 30 days' notice.

Last updated: 16 September 2026 · v1.0 · [Download PDF](#)

This page lists the sub-processors engaged by **InsideMaps Bulgaria EOOD** (StatusDNS) to process personal data on behalf of customers under the Data Processing Addendum. It is deliberately short: the Service is built and operated by us, and most data it handles is public infrastructure data.

1. Current Sub-processors

SUB-PROCESSOR	PURPOSE	LOCATION OF PROCESSING	TRANSFER SAFEGUARD
OVH SAS (OVHcloud) 2 rue Kellermann, 59100 Roubaix, France	Hosting of the application servers, database, backups and logs	Data centre in Virginia, United States	OVH data-processing agreement incorporating the EU Standard Contractual Clauses
Resend, Inc. San Francisco, California, United States	Delivery of transactional email: account emails, alerts, digests (recipient address, subject, content)	United States; sending region configured as EU (eu-west-1)	Resend data-processing agreement with EU Standard Contractual Clauses
Cloudflare, Inc. 101 Townsend St, San Francisco, CA 94107, United States	Authoritative DNS for statusdns.com and reverse proxy / TLS termination in front of the website and API (request metadata including client IP address)	United States; global edge network	Cloudflare data-processing addendum; EU-US Data Privacy Framework certification and EU Standard Contractual Clauses

2. Independent Controllers (not sub-processors)

PARTY	ROLE	LOCATION
Paddle.com Market Ltd Judd House, 18-29	Merchant of Record for paid plans: collects payment and billing details, issues invoices, handles tax and refunds.	United Kingdom (EU)

PARTY	ROLE	LOCATION
Mora Street, London EC1V 8BT, United Kingdom	Paddle determines its own processing and is covered by its privacy policy (https://www.paddle.com/legal/privacy).	adequacy decision)
Google LLC (Google Fonts)	Serves the Inter web font to visitors' browsers; receives the browser's request metadata.	United States
Public DNS, RDAP/WHOIS and blacklist operators	Receive the domain or IP address being checked, by the nature of the lookup. No account data is sent.	Worldwide

3. Changes to This List

Before adding or replacing a sub-processor we update this page and email account holders at least **30 days** in advance. Customers may object under Section 5 of the DPA. Removal of a sub-processor takes effect immediately. Questions: support@statusdns.com.
